

I like to roll around on the ice. I use my front **flippers** to pull myself forward.

One time, I slipped and fell into the icy water.
I'm not very good at swimming yet.

HARP SEALS
CAN HOLD THEIR
BREATH FOR
MORE THAN 20
MINUTES!

Soon, my fluffy, white **coat** will start falling out. I will have a coat like a grown-up seal's. When that happens, my **blubber** will keep me warm.

HARPER'S WHITE COAT WILL CHANGE TO SILVER-GRAY WITH BLACK SPOTS.

Then I will be ready to live in the **sea!**
